Object Lesson

Supplies/Prep

- 6 different kitchen tools that kids might not recognize
- Place the kitchen tools around a table where kids can reach them.

Share:

You've been learning about the Holy Spirit and how He gives each of us gifts. Our gifts have a special job like a lot of other things around us, such as these things from the kitchen. Let's have some fun exploring the tools and finding out what they do.

Take time to hold, study and talk about each kitchen tool, let your kid guess what he/she thinks the tool is for. After some guesses on each tool, reveal the actual use for the tool.

Talk About It

Ask: **What kitchen tool did you have the most fun with? Why?**

The kitchen tools look different and do different things, but they all help us make food or drinks. Like these tools, you can help others in different and unique ways. God gives you gifts, and you can use them to help others and serve God. *Take time to talk with each other about different ways you can help others with the gifts God has given each of you.*
